Ideal for:

- Sewing slip agent for Metallic threads.
- Poor Quality Sewing & Embroidery thread.
- Cutting tables.
- Lubricate sporting equipment.
- Protect and lubricate leisure craft & boating equipment
- Nylon moving parts like curtain tracks.
- Rust Preventative.
- Multipurpose dry lubricant.

How to use:

Shake can well before use and occasionally during use.

When unfamiliar with the application of this product, we recommend testing prior on a small area.

Hold the can approximately 30cm from the surface to be sprayed and apply an even coat.

*Note-After each use invert can and depress activator to clear the spray nozzle.

*This product should be used in an adequately ventilated Area and is not oil !

For Oiling your Embroidery & Sewing Machines we recommend TA SP-Oil
