Solid colour
40 colours / 1000 m

Polyneon is your first choice when you need a resistant thread for embroideries on frequently washed textiles. A strong thread perfect for machine embroidery, quilting, decorative stitching and appliqué. Polyneon colours remain brilliant even after repeated exposure to sunlight, chlorine and washing and add a radiant burst of colour to sports and active wear.

COTONA 100% mercerized cotton (Colour card No.125 and flyer W-FC C)

9350	No. 50 embroidery and quilting thread	120	1000 m / 1100 yds	5 spools

------	---	----	-----------------	----------

Solid colour
33 colours / 500 m

Neon
7 colours / 500 m

The first truly matt and light-fast embroidery thread brings a new sensation to the perception of colours and new highs to light fastness. Due to the unique construction and special finish, this embroidery thread intensively reflects the true colours. Frosted Matt is produced using exclusive dyeing methods resulting in an unmatched overall rating to light fastness. Colours remain and don't fade easily, as others do.

8010

OPAL
Metallic

Ideal for embroidery, festoon work, ornamental seams, and many other decorative applications on all home sewing machines.

8011

SOFT
Metallic

Soft with a stunning look. The secret is the black viscose core covered by a soft and fine metallic polyester foil.

8012

CLASSIC
Metallic

The traditional metallic thread for all sewing and embroidery machines. It contains pure silver, which gives a rich and elegant sheen to all your work.

8013

SPECTRA

Holographic foil which reflects light. When using on the machine reduce speed and thread tension.

8019

SMOOTH
Metallic

Smooth touch and strong performance thanks to a new twist construction. The core is wrapped by a narrow metalized foil that reduces the metalized percentage to only 25%.

8014

HEAVY METAL

The most hardwearing metallic thread. It can be washed at high temperatures (up to 95°C / 210°F) and is resistant to bleach and chlorine.

8015

MULTI
Polyneon

Multicoloured machine embroidery thread made from 100% polyester. Suitable for all embroidery machines.

8018

NEON
Polyneon

Neon coloured machine embroidery thread made from 100% polyester. Suitable for all embroidery machines.

8016

AEROFIL
Extra strong

Extra strong sewing thread for highly stressed seams or heavy duty fabrics.

8017

AEROFIL
Sewing thread

High quality polyester all purpose sewing thread for all fabrics and seams.

8040

RAYON

The most famous machine embroidery thread made from 100% Rayon Viscose. Perfect for all embroidery designs.

8030

COTONA 30

Machine embroidery and quilting thread made from the best Egyptian cotton. Gives a natural and noble look to any embroidery design. Suitable for all household sewing machines.

8045

POLYNEON

If embroideries need to be fast to chlorine and require heavy laundering, Polyneon is the right choice. It is the perfect thread for professional clothing, sports and leisure wear as well as for towels or tablecloths.

8035

COTONA 50

The perfect thread for quilters who appreciate high quality materials. It is made of extra-long staple Egyptian cotton and manufactured in Germany.

8046

POLYNEON

If embroideries need to be fast to chlorine and require heavy laundering, Polyneon is the right choice. It is the perfect thread for professional clothing, sports and leisure wear as well as for towels or tablecloths.

8031

COTONA 80

Fine machine embroidery and sewing thread made from the best Egyptian cotton. A most precious thread for the finest of seams on delicate fabrics. Excellent for heirloom sewing. Suitable for all household sewing machines.

8020

Metallic SPARKLING

Supertwist is MADEIRA's exclusive "effect" thread used by famous designers and fashion houses everywhere. Its unique twist construction produces embroideries with a brilliant, luxurious and unique appearance which will impress everyone who sees it.

8021

Metallic SMOOTH

Smooth touch and strong performance thanks to a new twist construction. The core is wrapped by a narrow metalized foil that reduces the metalized percentage to only 25%.

8041

AEROFIL Sewing thread

High quality polyester all purpose sewing thread for all fabrics and seams.

MOULINÉ

6 strand cotton floss, made from high quality long staple Egyptian cotton. It is dyed by using processes that do not involve any carcinogens or banned AZO dyestuffs. The result is a superb quality thread which is fast in colour and fully washable to 95°C (210 F). Absolutely effortless to strand, Mouliné is a pleasure to work with and ideal for traditional needlework activities. Mouliné is the preferred choice for classical cross stitch, satin stitch, shadow embroidery, the number one choice for hand embroidery and smocking. Test the new multicolours and marvel at the stunning variety of embroidery variants created as the thread stitches out. Combine Mouliné with shiny Decora and make your embroideries a distinctive and unique masterpiece.

SILK

Pure Silk 4-strand embroidery floss, a treat to embroider with and the perfect thread to use for a precious embroidery project or special occasion. Try Silk instead of cotton floss and see dreams come true adding a lovely soft and luxurious lustre to your embroidery. Used for colourful variety or classical shade in shade embroidery, the high quality of this pure silk embroidery thread guarantees lustre and durability of precious needlework.

DECORA

The high-quality rayon of Decora brings an illustrious and silky brilliance to your embroideries, making your favorite colors shine intensively. By daylight, Decora embroideries are immediately eye-catching, as the interplay of light and shadow transfers to the colors, transforming your design into a living artwork. Test the new multicolours and marvel at the stunning variety of embroidery variants. The effect comes automatically from the spiral package, with-out any need for changing the color. Combine Decora with Mouliné and make your embroideries a distinctive and unique masterpiece. Whether classical cross stitch, satin stitch or shadow embroidery – Decora is always worth a try!

NORA A metallized effect yarn for traditional crocheting. The high percentage of Viscose makes Nora soft and supple. Nora adds elegance to your creativity and is also perfect for hand and machine knitting.

LAMÉ Produced using fine Bemberg filament Rayon which results in a soft, yet traditional metallized effect yarn suitable for festive crocheting and knitting. Lamé guarantees to meet the most stylish of requirements when knitted on its own. Lamé retains its shape and wears extremely well.

Stabilizer Display

You know how difficult it is to organize and display stabilizers? MADEIRA solves your problem with this compact display of 12 selected stabilizers, each in its own colour coded pack. Here you find stabilizers for every type of embroidery, patchwork and quilting.

This space saving display holds three different types of stabilizer - Tear Aways, Wash Aways and Cut Aways - with four different weights in each type, everyone suitable for a wide range of different uses. Simple, easy-to-read pictures on the display clearly show how to use each type.

Each MADEIRA premium stabilizer is packaged in its own clam-shell "smart box" which keeps the contents in perfect condition, and protects the stabilizer from both dirt and moisture.

Professional Textiles care							
	Professional chemical cleaning with tetrachloroethene and all solvents specified with the symbol "F", (normal program)	Professional chemical cleaning with tetrachloroethene and all solvents specified with the symbol "F", (delicates program)	Professional chemical cleaning with carbon hydrates. Distillation temperature between 150°C and 210°C, burning point between 38°C and 70°C (normal program)	Professional chemical cleaning with carbon hydrates. Distillation temperature between 150°C and 210°C, burning point between 38°C and 70°C (delicates program)	No chemical cleaning possible!		
Professional Textiles care							
	Professional wet cleaning! (normal program)	Professional wet cleaning! (delicates program)	Professional wet cleaning! (extra delicates program)	No wet cleaning possible!			

The letters in the circle are primarily intended for the chemical cleaner's. They most of all provide information about the solvents coming into consideration. The bars below the circle mean that the mechanical strain during cleaning, the added moisture, soaking and/or drying temperatures must be reduced.

The symbol for wet cleaning is used for items that can be treated in a wet cleaning procedure in water. The requirements for the machine equipment, the used means and finish methods cannot be achieved by the parameters of a household washing machine.
