

# *Tajima Australia Spray Adhesive*

## Spray Adhesive

Spray Adhesive helps with the placement of appliques and of embroidery onto backing materials.

Please note that this is a temporary adhesive.

### Features and Benefits of this product

- The diffuser is designed to avoid over spraying.
- Fast drying and evaporates rapidly-before making impact with the fabric to avoid wrinkling.
- Sticks evenly and provides even adhesion to surface you are spraying.
- Doesn't clog needles or attract fluff if applied correctly.

New SAFE solvent formulation with low Hexane and no chlorinated solvents.

### How to use;

1. Make sure you spray in a safe area clear of items that may be damaged or effected by adhesive.
2. Spray adhesive at a distance of 20 to 30cm from the surface you are spraying.
3. Apply lightly and evenly ensuring the whole surface is sprayed.
4. Test the sprayed surface has enough adhesive applied to provide the desired result.
