WEB BOND

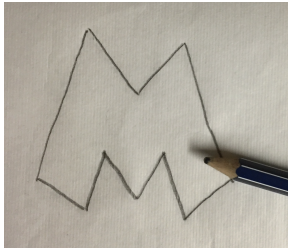

Double Sided Fusible Webbing.

WEB BOND is ideal for appliques ,textile and craft work as well as for mending and reinforcing. It adheres on both sides of the fabric ,with tracable paper making any shape or size cut out possible with the littlest of fuss.

Trace ,Cut & Iron

Step 1.

Simply Trace out the desired shape or motif on the paper side of the backing.

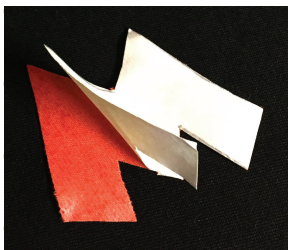

Step 2.

Cut out the shape roughly and iron on the wrong or underside side of your fabric

Step 3.

Cut out the shape on the traced line and peel off the paper .

Step 4.

Place the applique fabric in place on the fabric you wish to adhere to and iron.

Product Code :WEB3015

Size : 30cm x 15mt

Trace ,Cut & Iron.

Helpful Tips on this product.

* Simply set your Iron to High without Steam,Iron for 10 seconds ,for more delicate fabrics use a piece of fabric between the WEB BOND and fabric and extend the time.

*Always let the fabric sit and cool before you move to complete the adhesion process.
